IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Application of:

Nabel et al.

Serial No.: 09/378,528

Group: 1636

Filed: August 20, 1999

Examiner: W. Sandals

For: INHIBITION OF SMOOTH
MUSCLE CELL MIGRATION
BY HEME OXYGENASE I

RESUBMISSION OF SEQUENCE LISTING

Assistant Commissioner For Patents
Washington, D. C. 20231

Dear Sir:

In response to a telephone call from the Examiner, Applicants resubmit a paper and an electronic copy of the sequence listing. Applicants hereby state that the paper copy is an exact copy of the electronic version. The submitted copy corrects an error in SEQ ID NO: 1 regarding the length of the sequence. In the originally submitted sequence listing, the length of the nucleic acid sequence was listed in field <211> as 1549. It has now been corrected to state the length of the sequence as 1550. Applicants point out that the nucleic acid sequence has not changed. The error was caused by a software malfunction.
